HEAR VIEWS ON INCREASE IN TAXES

Citizens Give Finance Committee Their Ideas.

H. R. BURKE PRESIDES

Put it on Property on Merchants and Intangibles and Temporary Financing Are Suggestions Offered.

The finance committee of the city council last night held an open meeting in the auditorium of the Chamber of Commerce and heard the views of a number of citizens regarding the proposed increase in taxes on real estate in the city of Alexandria which the committee contemplates raising from $2 to $2.50 on the $100 assessed valuation

There was but a few citizens present, although the meeting lasted from 8 until 11 o'clock. The committee will formulate its report and it is expected submit to the city council at a meeting of that body which will be held next Tuesday night.

H. R. Burke, president of the common council and chairman of the finance committee, presided and explained the purpose of the meeting and read a paper showing the financial condition of the city. According to his figures the total assessed valuation of real estate is $7,311,189, or an increase of $1,238,319 over 1916. It was explained by Mr. Burke that the proposed increase in the rate of taxation will yield the city $23,528 additional revenue after allowing the usual discount. Other data regarding personal property and the great increase in operation of exenses of the city was also given by Mr. Burke. Among other things he said the dollar has a very different purchasing power from what it did three years ago.

He enumerated the various increases in salaries paid, setting forth that one item alone, the health department, cost $9,000 a year.

The expenditures last year he said were about $30,000 in excess of the receipts. The new assessment he thought would considerably increase the revenue. It, however, he said must be a conservative one. The increase, Mr. Burke stated, al realized would be a temporary expedient and would be adjusted when there is a more equitable assessment The state he said would have access to the federal income tax reports and may be able to get more revenue.

Councilman Ruben asked if there was any one present who could suggest how to make the deficit without increasing the taxes. Mr. Burke again took the floor and said he had heard city council criticized for its expenses for the fire department. However, he said the fire underwriters told the council either modern equipment would have to be obtained or the fire insurance rates raised which would have cost the citizens about $30,000. One thing now being considered he said is the appointment of an electrical inspector. Council also is criticized for its expenditures for the colored school. The property known as Holross he said was offered the city for $10,000 and someone objected to this location and said it would insure certain property. This object, he said, would cost the city $50,000.

This community owes Mr. Finke. chairman of the school board, a debt of gratitude he said, inasmuch as Mr. Finke through the purchase of lumber for the new school house for colored children saved the city $12,000.

John M. Johnson, a member of the local bar, said he did not come to criticize council, but he understood that the receipts next year will fall short of the expenditures about $50,000. He was of the opinion that if the rate could be raised instead of increased it would be far more helpful to the city.

There are he said about 3,500 property owners in the city and between 2,000 and 5,000 of these own their own homes. He said it would be a great burden on about 1,500 persons who own their own homes. He asserted that there has been no real advancement in real estate and said that if the new assessment yields ten per cent increase the city will be doing mighty well.

Continuing, Mr. Johnson said: "Don't place it on the home owner if it can be avoided. Enforce the law on the statue books and you can raise it." Continuing he recommended raising the license tax. He directed attention to the fact that council increased the license of the lawyers. He further stated that no increase had been made on the physicians who are making from $10,000 to $25,000 a year and only pay a small tax.

Mr. Johnson further stated: "All I ask is to enforce the law; the merchants are the ones upon which the burden should fall. They are getting rich. One retailer made $50,000 net profit last year."

The merchants on King street he asserted get the benefit, and he said they made millions last year.

Out of 350 merchants only $27,500 was paid in taxes last year and he said they could stand $100,000 license taxes just as easily.

Council he asserted has a right to demand that the merchants make accurate reports on purchases. Mr. Johnson asserted that if council enforced the law $40,000 additional revenue could be obtained from the merchants on the volume of business done.

He also recommended an increase in licenses.

Charles E. Tennesson after explaining the tax situation suggested that one way to get additional revenue would be a small tax in intangibles personal property which might be taxed thirty cents on the $100.

R. S. Roberts stated that he agreed with Mr. Johnson that the little home owners should not be taxed. He suggested a license on selling property and also a tax of $1 a year on each room rented.

Gardner L. Boothe stated that the question is where to place the burden.

He stated that only a handful of property owners were present. Their taxes would be only increased $6 or $8 a year he said. Mr. Boothe said Mr. Johnson's statement that property values have increased was incomprehensible. There would be no difficulty he said in putting the tax back at the end of the year, and he added that he believed a large part of the tax increase would be placed on King street property. Mr. Boothe thought that if a tax was placed on intangibles it would drive out rich persons, and the burden would fall on women who held only a small number and they would have to remain here. Concluding Mr. Boothe declared that Alexandria real estate today is higher than ever before and the property owners should be willing to help out.

John W. May thought the lawyers paid only a small tax while the merchants pay a pretty good proporation. Only about $850 is paid by the lawyers while the merchants paid in licenses about $27,000. He said and the merchants form about one-fiftieth of the population and pay one-eighth of the taxes,

Carroll Pierce said that the city can't expect to increase home building by raising taxes every year or so. He favored an equalization of taxation in all forms, and added that he was afraid an increase on real estate would stifle building operations. Mr. Pierce was opposed to doing anything that would reduce our chances of growing.

He suggested that the proposition might be met by short time financing.

R. Philpot expressed himself in favor of increasing the tax on real estate as the most practical method of obtaining the additional funds required to operate the city for the coming year.

Capt. George H. Evans suggested that the Chamber of Commerce is daily receiving requests from manufacturing concerns that contemplate locating in this vicinity and they would not care to come if they were to be burdened with high taxes. He said one solution would be to have a plat book made and assess property by the square foot then the taxes would fall on all alike.

Messrs. Charles E. Tennesson and Julian Y. Williams discussed the merit of the square foot plan of assessment.

FOR IRELAND'S FREEDOM

Senate Makes Broad Indorsement of Principle of Self-Determination

The Senate voted last night to incorporate into the ratification of the treaty of Versailles a formal expression for the freedom of Ireland and a broad indorsement of the principle of self-determination of subject peoples everywhere.

Should the treaty be ratified with this reservation the United States would enter the league of nations committed not alone to active sympathy for the aspirations of the Irish people for separation from the British Empire, one of the controlling members of the league, but would carry to the councils of the world society of nations a sentiment for the liberation of other subject races aspiring for nationality—Egypt, Persia, Korea, India, Syria, and Shantung.

The reservation goes even further. Senators who opposed it, among them Senator Henry Cabot Lodge, despite the great Irish vote in Massachusetts, insisted that it committed the United States to grant nationality to its possessions—Porto Rica, Hawaii, the Philippines, and the Virgin Islands.

GIRLS JOIN STRIKE

Girl pickets spent a busy day trying to head off "strikebreakers," but the steamship line managed to "worry along" with its reduced staff.

BIG CROWD SEES SPRING CREATIONS

Stores Packed Last Night at Spring Opening of Styles.

AFFAIR A SUCCESS

Living Models Display Styles to Advantage—Music Furnished at Several Stores—Elaborate Stocks.

Practically duplicating the enormous crowd that witnessed the style show parade on Wednesday evening, the many merchants of the city entertained throngs of people in the stores last evening and today, nothing but expressions of satisfaction over the first community opening are to be heard.

The weather man continued kind yesterday and the streets were thronged with people throughout the greater portion of the day. The stores opened at 7:15 o'clock for display purposes only and every store included in the list was visited by extraordinary large crowds during the evening.

Alexandria's first big style show closes today and its closing will mark one of the biggest events of its kind ever held in the city. General opinion is that the success which attended the show would result in the staging of a similar affair in the autumn on a more elaborate scale.

Probably the largest crowds of the evening visited the stores of Swan Brothers, Bendheim's and the Leader Store.

Georgeous decorations, both inside the stores and in the windows, attracted enster crowds to these stores. The Swan Store was a place of beauty from first to top floor and the crowds made passage in the aisles almost impossible. The decorations were beautiful in the extreme and much credit is due Mr. Baker, the display manager of the store, for the work and time spent in making an attractive display.

Orchestra music and living models, displaying the latest in suits, coats and dresses for spring and summer, proved the major attraction at the Bendheim's store last evening, and long before the model display began, every person who could possibly squeeze into the big second floor space had arrived. The crowds kept coming larger and larger and it is estimated that many hundreds were turned away, unable to get near the scene.

A long runway had been laid out and the models promenaded down this runway, the visitors to the store being seated and standing in a dense mass on either side. So many persons were turned away that the management of the store has decided to duplicate the opening next Tuesday evening.

Decorations inside the store and in the windows were of the highest character and speak much of the artistic ability of Mr. Munch, the stores display manager.

At the Leader store, which is a place of unusual beauty, the great crowd of Wednesday evening, when music and dancing featured, was duplicated and the sightseers kept coming until a late hour last night.

The shoe stores of the city are deserving of very special mention for the window decorations and the artistic ability shown in the interior decorations. Beautiful window display featured the contribution to the style show of the Katz shoe store, M. W. Gaines and P. M. Bradshaw's store, while other tasty shoe windows formed part of the displays of several clothing merchants.

Among the premier men's clothing decorations were those of Downham and Ridgley, Eddy and Gerber, Kaufman and Blumenfeld, Alex. Kaufman, Abe L. Cohen, B. Abramson, Levinson Clothing Company, and others. Such a little difference in the arts displayed was apparent that the chosing of a premier display would be a difficult task.

Many of the smaller stores outdid themselves in the variey and beauty of the display. Two of the prettiest windows to be found in the city were those of Frank Michelbach, Alexandria's largest furniture store, while the displays of other merchants in the same line are deserving of special attention.

Living models displayed negligees, silk underwear and other intimate articles of wearing apparel at the Ruth Roycroft Shop last evening and a large crowd of women were in attendance. The high class articles handled by this shop were displayed to the best advantage and all in attendance voted it one of the nicest displays of the entire city.

Space will not permit of a special talk on the displays of the individual stores, but every merchant entering into the spirit of the affair may feel justly proud of the effort, time and money expended.

WETS WIN IN MARYLAND

House of Delegates Vote Down Prohibition Enforcement Act.

ANNAPOLIS, Md., March 19.—Long strides were taken by the house today and last night in reaching a settlement of the irritating controversy which has stirred Maryland since the prohibition amendment and the Volstead act went into eect on January 16

The first step was the rejection of the McBride bill applying the Volstead act to Maryland. The vote was 39 for and 62 against the bill.

The second step was taken when an agreement was reached on the bill permitting the manufacture and sale of beer containing 3 1-2 per cent alcohol, the bill introduced by the majority members of the temperance committee and approved by Governor Ritchie in a message to the house on Tuesday. Originally the bill was declared to be a nullification of the constitution. This objection was removed by an amendment which recognizes the inviolability of the Federal Constitution.

The second step toward an understanding was reached in making more explicit the cause of the bill, making it imperative if the Supreme Court upholds the prohibition amendment and the Volstead act. If any phase of the Volstead law is invalidated by the court the Maryland bill, which seems to be destined to pass, will become effective. In other words, if the Volstead act is put out of commission, the Maryland law would step in as a substitute.

SPRING IS NEAR

According to the almanac, spring will begin next Sunday. At that time the sun will be vertical at the equator in its movement towards the north. By the 21st of June it will be at the northern tropic (cancer), a line running through the southern part of the Gulf of Mexico.

The winter through which we have virtually passed has been rigorous. During the past four months we have had trying weather. Today two weeks ago we passed through a veritable blizzard.

More than the average number of cases of indisposition, the result of the sudden meterological changes, have been in evidence this winter. While the fatalities have been small compared with those two years ago, some deaths have occurred. The prevalence of flu (fortunately in a milder form), and grip and other winter ailments have been general, and physicians have been kept on the go for months.

Such troubles incident to the frigid season cause but little anxiety to the young and vigorous, but those whose locks have been whitened by the snows of many winters feel the effects of such disorders long.

But the chirping of the birds and the advent of fishing season will soon be in evidence, and the revival of nature should cause all to thank God and take courage.

THE IMPENDING CRISIS

If it be true that there is a sincere and powerful liberal movement in this country and if the men, East and West, North and South, who have reacted against rigid prohibition are in search of a leader and champion, it is suggested they possibly may find in Senator Gilbert M Hitchcock, of Nebraska the very man for whom they have been looking.

This has just been disclosed by a telegram which the Senator dispatched to a group of his friends in Omaha, in which he comes out strongly in behalf of beer and light wines, and in doing so he has answered the challenge of his fellow-Nebraskan and his former political ally, William J. Bryan.

As the Washington correspondent of the Baltimore Sun observes, a mighty struggle is about to be staged in Nebraska between these two men for the control of the Nebraska delegation to the San Francisco convention. Mr. Bryan has asked for election as delegate at large. But he has announced in advance that if sent to San Francisco he will refuse to cast his vote for Senator Hitchcock. The Senator is Nebraska's favorite son and his friends are determined to vote the delegation as a unit for him.

Mr. Bryan's primary objection to Mr. Hitchcock's lies in the fact that the Senator is no ta prohibitionists. To this charge the Senator pleads guilty. Mr. Hitchcock is against the saloon and all that the saloon stands for, but he is for moderation and toleration in the matter of prohibition and refuses to allow Mr. Bryan to terrify him, silence him or bargain with him on the subject.

Senator Hitchcock can add to his prestige by defeating Mr. Bryan on his own ground and among his own people, the nit need not be surprising if the Hitchcock candidacy looms bigger and bigger as the convention approaches and if it overshadows the "wet as the ocean" candidacy of Governor Edwards, of New Jersey.

BUYS BARREL OF WATER

Wilkes Barre, Pa., March 19.—If John Spitzer, of Harleigh, again buys whisky at fancy figures he says he will be more careful to make sure the barrel contains no duplicate chambers nor rubber tubes.

Recently Spitzer was offered a barrel of the "real stuff" for the modest sum of $700. John Crow, of Pittston, the obliging friend with draw the stopper to allow Spitzer to taste the quality of the proffered goods. It tasted "real," Spitzer bought.

When he got the precious cargo home, Spitzer discovered an automobile inner tube filled with whisky fastened about the bung-hole. The rest of the buy was pure water.

Crow was later arrested. He has been indicted by the grand jury.

BOY KICKED TO DEATH

Colorado Class Leader Victim of School Feud

Pueblo, Colo., March 19.—Ted, the 11 year old son of Mrs. H. A. Kuykendall, in a statement yesterday shortly before his death, charged he had been kicked and injured by five school boys. Physicians say the lad died as a result of these injuries.

Behind the death of the lad is a school boy feud. Ted's mother is poor. His clothes earned for him the name of "Poverty" among school mates. Despite handicaps, the boy led his classes. This is believed to have created jealousy.

Ted, according to his statements, "whipped" two boys of his own age a few days ago when they jeered at his clothes. Friday five older boys attacked him and kicked him into unconsciousness. Neighbors found him behind a billboard.

RATIFICATION DENIED

Raleigh, N. C., March 19.—The woman suffrage amendment has not been ratified by the West Virginia legislature, according to a telegram received by Governor Bickett today, from J. H. Gaines, counsel for the anti-suffrage forces in West Virginia.

Gaines asserts thot the Senate refused to ratify, and later in violation of its own rule undertook to ratify. This fact, he says, has not been made public. He adds that legal steps will be taken to set aside the action of the senate on the ground that it is void.

NOT TO USE PLAN

Government Guarantee Believed by President Harrison to be Unnecessay

Atlanta, Ga., March 18.—The Southern Railway System will not accept the "standard return" provided in the new transportation act, it was learned here Tuesday, but will back up the belief of its officials in the continued prosperity of the South by relying on its own earnings during the next six months, it was learned last night.

President Fairfax Harrison, after a trip through the South, came to the conclusion that conditions were such that the Southern Railway system could produce results which would equal or surpass the government guarantee. The decision will affect the Southern Railway Company; the Cincinnati, New Orleans and Texas Pacific, the Alabama, Great Southern and the New Orleans and Northeastern Railroad Companies.

Had the Southern Railway System qualified for the government guarantee its net income for the next six months would have been assured of being $12,500,000. Local officials of the Southern were notified today that the guarantee would not be accepted.

MURDER AND SUICIDE

New York, March 19.—The body of beautiful Mrs. Anna Evans, not yet 20 years old, was found Wednesday in a trunk in her apartment in New Britain, Conn. She had been strangled with the reins of a toy harness belonging to her three year old son, Teddy.

A few hours later her husband, George Evans, a skilled mechanic, dying in Bellevue Hospital, this city, of poison and self inflicted wounds in the throat, confessed that he had killed her.

And three year old Teddy was at the home of his grandmother in New Britain, crying his eyes out for papa and mama to come back to him.

Unreasoning and unfounded jealousy is believed to have been the motive that led Evans, whose real name is Evanoff, to slay his pretty and vivacious young wife. The couple had quarreled frequently of late.

Freshman Prisoner of Sophs Hurt in Trying to Escape

Chicago, March 19.—Miss Elizabeth Chapman, president of the freshman class of Northwestern University, is in a hospital seriously injured as the result of a fall from a third story window of an apartment building. She had been imprisoned there by members of the sophomore class to prevent her appearance at a St. Patrick's Day party of the lower class.

Miss Chapman was abducted from her home Monday and taken to the apartment where girl students stood guard over her. In an effort to escape Monday night she made a rope from sheets and attempted a descent from a window. She lost her grasp and plunged to the sidewalk.

TO INCREASE CAPITALIZATION

The directors of the Willys-Overland Company it is understood, are considering increasing the capitalization of the company to provide increased facilities which will result in large savings to the Willys-Overland Company, and at the same time permit of a greatly increased capacity, to meet the remarkable demand for its product.

Prior to this country's entry into the war, with a concentrated production on one or two models, Willys-Overland showed great earning power, paying 22 per cent during the twelve months just before war was declared.

However, foreseeing a period of war service, Willys-Overland reduced dividends to a 4 per cent basis and offered its services unreservedly to the Government. Since then the company has met and overcome many serious though temporary obstacles. In 1917 its automobile out put was rapidly reduced by the government request and at the time the armistice was signed its production was wholly war work. Sudden cancellations of war orders left the company with a further period of readjustment to a peace program. Its new models were just started when its capacity was again handicapped by a prolonged strike provoked by demands of a radical labor element. The stand taken by Willys-Overland during this strike, while of the greatest importance to the industry, resulted in a curtailment of production, but this year, with over 14,000 men working at Toledo and the established policy of concentrating on only two models, Willys-Overland again is showing evidence of its great normal earning power.

The two new models, dealers report, are very successful and more than 50,000 of the new Overland 4's have been shipped since the model was announced November 1st. Present output is in excess of 600 per day and it is expected this Spring to reach 800 per day. But as the demand is steadily increasing in advance of the supply the company deems it advisable to prepare now for the establishment of facilities which will not only result in large economies for present activities, but will also insure the economical production of a much greater output.

John N. Willys has been steadily strengthening his organization during the past few years and has recently appointed as general manager of his various interests Mr. Walter P. Chrysler, former president of the Buick and vice president in charge of production of General Motors Corporation. Mr. Chrysler is conceded to be one of the greatest automobile executives in this country. He is regarded as another important factor in the earning possibilities of Willys-Overland.

It would not be illogical to expect a new dividend rate on Willys Overland when present year's earnings make themselves felt.

CUT THIS OUT

Special Notice — Dr. Frederick Jacobson says that phosphates are just as essential to any woman who tires easily, is nervous or irritable, worn out or looks haggard and pale, to make a strong, robust, vigorous, healthy body, as they are to make corn, wheat or any vegetable plant grow strong and healthy. The lack of phosphates is the cause of all enemic conditions and the administration of 5-grain Argo-Phosphate Tablets will increase the strength and endurance 500 per cent in a few weeks time in many instance. Dispensed by Gibsons Drug Store.

HEALTH CRUSADE IN VIRGINIA SCHOOLS

The Modern Health Crusade is being waged in many schools in Virginia. It is interesting to both pupils and teachers.

To state the case tersely, the Modern Health Crusade is a fight to establish health habits in the youth of the land, by the youth of the land.

Any boy or girl may join the ranks of the crusaders. Any teacher may organize her pupils for this warfare.

Eleven health chores must be done daily in order to be a crusader. These health chores are health fundamentals. When they have been done for two weeks the crusader becomes a page. When these same chores have been performed three weeks more the page becomes a squire, and when faithfully performed for an additional term of five weeks, the squire becomes a knight, while a further performance of five weeks entitles the warrior to a knights band ret.

The modern health crusade has a sound psychological basis. It sets out to establish sound health habit at a period when habit formation is least difficult. The boys and girls who enlist learn valuable lessons. All of them will keep up some of the good health habits learned. Probably one of them will keep up all of these habits. Parents who are vigilant will find their duties made easier by the M. H. C. Every parent knows that the use of the tooth brush is not easily taught; that cleanliness is a state acquired by the child at some cost to the supervising adult. Parents in many states as well as in Virginia bear testimony to the help in hygienic habit formation, which their children are getting through the M. H. C. And children, whose parents do not instruct them in bodily hygiene will have a chance at being helped to right health procedure. Teachers will see an improvement in the health of pupils. As for the pupils, they thoroughly enjoy the story of the modern application of the Medieval Crusade and strive to win the badges which mark the successful completion of each period of work.

Every principal and teacher in the State, who has not organized their pupils for the Modern Health Crusade is urged to do so. Sample copies of the health chores and information concerning the organization will be furnished all who apply for it by the Virginia Tuberculosis Association, 1110 Capitol street, Richmond, Va.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice. A CAMPAIGN DIRECTOR SAID

"Let me tell you how much I appreciate your prompt action in installing telephone service for the Red Cross Christmas Seals Campaign. Twenty-four hours after the fire the service had been installed.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 25c.

Hot Suds & Gainaday Power Make Washing Easy

Before the day of washing machines hand work was necessary, washboard rubbing was back-breaking, but it had to be done. Now with such a sturdy machine available as a Gainaday Washer and Wringer, the housewife's strength can be saved for the "better things" of life. And saving your strength now is a wise measure of economy—as thousands of American mothers will testify.

Like a powerful motor car, your Gainaday Washer and Wringer will carry through the hard places on high speed. The strong motor has enough power and more, to run the washer and wringer at the same time. Mighty important, too, when you come to wring the clothes from rinse water to blue water and to basket while another batch of clothes is coming through the washer. This double duty is a part of the Gainaday job that you can always depend upon.

Easy Monthly Payments

The Gainaday easily meets the small monthly payments with the actual cash it saves you. It saves the time of yourself or your maid; it saves wear and tear on the clothes. The down-payment of $10.00 is so small it is insignificant; the easy monthly amounts quickly pay off the balance.

The Gainaday has every convenience; swinging wringer, copper tub, zinc cylinder, automatic friction-drive, steel frame, and is completely guaranteed. Telephone today, write or come in for demonstration.

FIRE SWEEPS YARD

Blaze in Washington Threatens Gasoline Tank

Explosion of hundreds of gallons of gasoline stored in the Federal Taxicab Company garage, 212 Thirteenth street southwest, Washington, was imminent early yesterday, when a spectacular $40,000 fire swept the William T. Galliher Brothers' lumber yard Thirteenth and B streets southwest. For a time the flames threatened the garage, adjoining the lumber yard.

It was two hours after a fourth alarm had been sent in before the fire was under control.

CHARGED WITH ROBBERY

Ten Railway Men at Knoxville and Three Merchants Held

Knoxville, Tenn., March 19.—Following the arrest here of ten Southern Railway employees, charged with the robbing of cars, and three merchants, charged with receiving stolen goods, cigarettes valued at $5,000, have been recovered by city detectives. Cigarettes worth as much more also have been stolen. Consignments en route to Kansas City and other Western cities have been recovered.

LEOPARD CANNOT CHANGE SPOTS

Mr. Dodson, the "Liver Tone" Man, Tells the Treachery of Calomel.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynimite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel billious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It can not be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tone which straightens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.

The Geyser

Electric Washer and Wringer

Most Compact Ever Built

There is absolutely no waste space about the Geyser. For the same capacity the Geyser is the smallest electric washer on the market, and the most efficient. This is due to the fact that the unique propeller principle of washing (which actually drives hot, soapy suds through the clothes) enables the entire tank and cylinder space to be used, instead of only one-third to one-half of it.

The Geyser effectively demonstrates that a highly efficient washer need not be a cumbersome, unwieldy machine.

The Premier Cleaners and Dyers

Alexandria's Largest and Best Equipped Shop Will Open

MONDAY, MARCH 22nd

At 1210 Queen Street

THE PLANT

We are starting in business with one of the most complete and up-to-date dyeing and cleaning plants to be found outside of the larger cities. Costing several thousands of dollars, when installed, the equipment is exactly the same, on a smaller scale, as that used in the largest cleaning and dyeing plants in the United States. It is specially constructed to take care of almost every kind of work in this line and, when the new plant opens next Monday morning, the residents of Alexandria may be sure of the last word in efficient machinery and equipment.

The Management

Under the management of **Mr. William Leon Slater,** who for the past 12 years has been connected with some of the largest cleaning and dyeing plants in the country, this new plant is sure to be conducted in the way best for the interests of the residents of the city at large.

Mr. Slater is thoroughly versed in the art of cleaning and dyeing and, without doubt, will prove to the people of Alexandria that their work can be done better and cheaper at home than in other cities. Mr. Slater will be glad to personally meet any Alexandrian wishing to inspect the new machinery and the plant, and intends to conduct the new business entirely along the line of "Personal Service."

THE WORK

Spic and span from the cleaning man is the way your wrinkled or soiled clothes will come from our plant. We renew them with a freshness, crispness and sparkle that makes them look like new and adds days and days of prepossessing wear.

No woman who is opposed to buying new clothes at today's high price need look dowdy while our service is so available and so efficient in restoring old clothes to new brightness and cleanliness. Just try us. You'll like the service and the economy.

You apply it externally, and rub it in. There is no irritation to the tenderest skin, but it quickly penetrates to the seat of the trouble, and relieves the congestion like magic.
Mother's Joy Salve should be kept on hand for an emergency. It will surprise you how quickly it will break a croupy cough, or relieve soreness in the chest.

VIRGINIA NEWS

Reversing the Circuit Court of Elizabeth City County, the Virginia Supreme Court of Appeals yesterday held that S. Gordon Cumming was not entitled to a divorce granted by that tribunal. It also held that the prenuptial contract whereby Mrs. Cumming agreed to sue for divorce immediately after marriage was null and void. Cumming, a Hampton lawyer and former member of the Virginia legislature, was recently fatally shot by his wife on the street in Hampton. Action of the appellate court, it is stated, will have a direct bearing on the disposition of his estate, his widow being entitled to a one third share under the Virginia law.

John Fairfax, brother of the late Henry Fairfax, of Loudoun county, is planning to build, what it is declared, will be the finest private home in Virginia. It will be located in the vicinity of Westhampton, several miles west of Richmond. He now is living on an estate in Prince Georges County.

The Old Dominion Steamship Co., threatens to withdraw the New York-Norfolk steamers altogether because of the harbor strike in New York and to operate the line to Cuba. The company, now under the Mellory interests, has already withdrawn the Richmond and Hampton Roads steamers.

The campaign of friends of Attorney General A. Mitchell Palmer to nominate him for the Presidency is said to be making rapid progress in Virginia. Organization Democrats in all parts of the State are lending support to the Palmer movement. Palmer headquarters in Washington was advised yesterday that a Palmer for President Club had been organized in Fairfax county, headed by R. Colton Lewis, of Clifton.

With a bullet hole entirely through her body, Mrs. Anna R. Worldoff, of Buffalo, N. Y., who attempted to end her life Sunday night on the U. S. torpedo boat destroyer Haraden is lying between life and death at the Naval Hospital in Norfolk. Naval physicians say her chance of recovery is not favorable.

Gladys Purks 15 years old, of Fredericksburg, was shot and seriously wounded by her 5 year old brother when a shot gun with which he was playing was accidentally discharged. The charge tore away part of the girl's face.

The western district of Virginia of the Federal bureau of internal revenue will be abolished and the work of the western district will be merged with the eastern district, under Collector R. C. L. Moncure, according to information received in Roanoke this week. J. S. Persinger, collector for the western district, will remain in Roanoke as deputy collector, in charge of what will be known as the Roanoke substation.

Three men captured by a posse after a pistol battle in a marsh are said by Sheriff Lucas to have admitted robbing a store in Luray. The posse started search after the burglars had been discovered and had fired two shots at Vincent Foltz. One of the fugitives was felled by an iron bar in the hands of Foltz. He succeeded in gaining his feet, however, and fled to the swamplands. Those under arrest gave the names of W. A. Wingert, Baltimore, and C. W. and E. F. Jenkins, of Hagerstown, Md. The three were held for the action of the grand jury.

ASKS DAMAGES FOR COUGH

Washingtonian Alleges Associated Charities Caused Ailment

Washington, March 18.—A cough, which Charles A. Grock says he acquired ten years ago, on February 18, 1910, is the basis of a $50,000 damage suit filed by him yesterday in the District Supreme Court against the Associated Charities.

Grock's daughter, Miss Nellie Grock, who was a minor at the time, but now an attorney with offices in the Mills Building, filed the suit in behalf of her father. The cough, according to Grock's declaration, resulted from his being arrested and taken to the patrol box without his overcoat in winter time. His arrest, Grock states, came about by a complaint filed against him by an agent of the Associated Charities charging him with failing to support his four children. This complaint, he states, was dismissed after he had been in the lockup 8 hours. Grock claims the $50,000 for the alleged injury to his health.
